PROFILE

A Web Engineer with 9 years of experience in Front-End technologies. Adept at building dynamic UIs and web applications with Angular, JavaScript, TypeScript, Bootstrap 4 - 5, Material Design HTML5, SCSS, and modern no-code tools like Bubble.io, converting any design into pixel-perfect, mocked-API functional, and cross-browser compatible layouts.

In 2021, I co-founded [StartStorez](#) and assumed the role of CTO. I successfully conceptualized, developed, and scaled the platform from inception into a fully functional and profitable business.

HANDS-ON SKILLS

User-Interface (UI): HTML5, CSS3, SCSS, Bootstrap 4 - 5, FlexBox, Material Design, Responsive Design.

Front-End Frameworks: Angular 13 (Onwards), JavaScript, TypeScript ES6, jQuery, React.js.

No-code Tools: Bubble.io (apps, workflows, API integration), Zapier, Airtable, and Glide.

CMS Expertise: Custom theme development (PHP and Liquid) & designing with WordPress and Shopify.

Tools & Libraries: RxJS, NgRx, Angular CLI.

Version Control: GitHub, Bitbucket.

Build Tools: Webpack, npm.

Design Tools: Photoshop, Figma, and Adobe XD.

Other: Agile/Scrum methodologies.

EDUCATION

[Aptech Computer Education](#), Karachi, Pakistan - *Advanced Diploma*

2011 - 2014

- Completed 4 years of an advanced diploma in Software Engineering.
- Certified JavaScript Developer (Angular Developer by Google)

WORK EXPERIENCE

AutoLeap, Ontario, Canada - Sr. Web Engineer (Full-time remote)

2020 - PRESENT

- Started with Angular v8 & consistently implemented timely upgrades, ensuring the application is now updated to the latest version (v15).
- Created custom dashboards & data visualizations using Highcharts.js & improved data insights.
- Used Bootstrap 4 - 5, Material Design, Flex layout & SCSS to develop the new UI components & maintain the existing ones.
- Integrated RESTful APIs & implemented efficient data binding, optimizing performance.
- Identified, & fixed bugs, & Implemented state management solutions using NgRx, reducing app performance issues.
- Worked closely with product managers & designers to gather requirements & translate them into technical specifications.
- Created & maintained technical documentation, including code comments & API documentation.

StartStorez, Karachi, Pakistan - CTO / Co-Founder

2021 - PRESENT

- Present reports on the company's technology status, goals, & progress in weekly sprints.
- Create & implement technology strategies.
- Align the company's technology resources with the organization's short- & long-term goals.
- Identify what technologies can improve the company's products & services.

Creative Chaos, Karachi, Pakistan - Web Developer

2016 - 2020

- Worked with Python-developed applications & took care of all the Front-End work.
- Used APIs, manipulated data, & performed CRUD operations using Angular 8 for FE & Bootstrap 4 for the User interface.
- Created user interfaces (UI) & user experiences (UX) that are intuitive & responsive.
- Designed, developed, & implemented web applications from concept to deployment.
- Maintained & updated existing web applications to improve functionality & user experience.

Ignytes Agency, Karachi, Pakistan - Front-End Web Developer

2015 - 2016

- Developed new user-facing features.
- Checked the technical feasibility of UI/UX layouts.
- Ensure the user input is validated before submitting it to the back-end.
- Used visual layout tools for creating prototypes, mockups, & wireframes, along with user interface roadmaps.
